THIS COMPANY, organized in 1846, on a system entirely *Mutual*, furnishes Insurance in all he various forms, and to meet all the various contingencies for which Life Insurance is desired, at he *actual cost* to the policy holder. There is no *Stock* or *Guaranty Fund*, to absorb the profits, but ll the *surplus* is annually allocated to the policy holders, in proportion to the amount of the pre- ium they pay, and may be appropriated to the payment of *renewal* premiums, after the first four ears.

### Some of the Important Reasons why this Company should be Preferred.

It offers *abundant* SECURITY, in a large accumulated Fund, derived from Premiums, amount- ng to over *Four Millions of Dollars.*

Its ECONOMY in the management of business permits large dividends to policy holders, which ave averaged **50 per cent.** per annum.

Its DIVIDENDS are ANNUAL, and are paid *during the life*, of the assured, in cash to those ho pay their premiums in cash, or applied in canceling the notes of those who pay their premium artly by note. Nearly $200,000 have been thus refunded to policy holders during the past year.

It is prompt in PAYMENT OF LOSSES.

It ACCOMMODATES the insured in the settlement of their premiums on *Life* policies, by eceiving a note for *one-half*, when the premium amounts to $50 or more,—thus furnishing insurance or double the amount, for nearly the same *cash* payments, as is required in an "ALL CASH OMPANY."

Much has been recently written and extensively circulated, by a prominent Life Insurance Com- any, condemning the *credit* or half-note system, as practiced by this and some other prosperous ompanies. The illustrations accompanying those attacks explanatory of the system, exhibit either n inexcusable ignorance of the plan, or a wanton effort to mislead and prejudice those who seek nsurance upon the most *equitable and economical plan.* The explanations thus published to illus- rate the *half-note* system, do not, it is believed, apply to *any* Company in the country, certainly not in the least degree to the CONNECTICUT MUTUAL, in which there can not be an accumulation of premium notes beyond *four* half premiums; as the dividends apply to cancel those notes after the first *four* payments. Parties are not, however, *required* to give a premium note to this Company; but, if preferred, may pay *all cash*, in which case, their dividends are applied to a reduction of the premium.

The Directors have ordered the dividend of 1858 to be paid during the current year, as the renewals become due and are paid—by reduction of the premium of those who have paid all cash, or canceling the notes of those who have given notes for one-half.

The Cash Assets of this Company exceed

**EIGHT MILLIONS OF DOLLARS,**

All of which belong to the Insured.

The investments are in first Mortgages on Real Estate, worth, in each case, at least double the amount loaned, and in Government securities. The solidity and security of this disposition of the Company's funds, cannot be overrated.

Being a strictly mutual Company, ALL THE PROFITS ARE DIVIDED AMONG THE INSURED, and may be added to the amount insured, or applied in REDUCTION OF PREMIUM.

The business is confined to insurance on lives.

The transactions of this Company are exclusively Cash. Notes are not taken in payment of Premium; and hence form no part of the Assets of the Company.

The Rates of Premium are LOWER than charged by many other Companies, and the dividends have been GREATER.

After payment of two years' premiums, the Company will purchase the Policy, should the insured wish to dispose of it, or a paid up Policy (upon which no premium is payable), will be given in lieu thereof.

The proportion of Cash Assets to the amount at risk is greater than that of any other Life Insurance Company in the United States.

## The Decimal System of Numbering Houses.

One Hundred Numbers are set apart for each square, and the initial or starting-points are at the Delaware River and Market Street.

Persons can, by merely looking at the numbers on the Houses, know how many squares they are from the Delaware or Market Street.

By-Streets are numbered as though they extended to the Delaware or Market Street.

Numbers properly arranged suggest distances to the mind; but improperly placed, they lead to confusion.

### SCHENCK'S

## PULMONIC SYRUP,

For the Cure of Consumption, Coughs & Colds.

The great virtue of this medicine is, that it ripens the matter and throws it out of the system, purifies the blood, and thus effects a cure.

### SCHENCK'S

## MANDRAKE PILLS,

For the Cure of Liver Complaint, &c.

These Pills are alterative, and produce a healthy action of the Liver, without the least danger, as they are free from Calomel, and yet more efficacious in restoring a healthy action of the Liver.

### SCHENCK'S

## SEA-WEED TONIC,

For the Cure of Dyspepsia, Indigestion, &c.

The Tonic produces a healthy action of the Stomach, creating an appetite, forming chyle, and curing the most obstinate cases of Indigestion.

These remedies are a certain cure for Consumption, as the PULMONIC SYRUP ripens the matter and purifies the blood. The MANDRAKE PILLS act upon the Liver, create a healthy bile, and remove all disease of the Liver, often a cause of Consumption. The SEA-WEED TONIC gives tone and strength to the Stomach, makes a good digestion, and enables the organs to form good blood, and thus creates a healthy circulation of healthy blood. The combined action of these Medicines, as thus explained, will cure every case of Consumption, if taken in time, and the use of the Medicines persevered in.

Dr. Schenck's Principal Office is at No. 39 NORTH SIXTH STREET, where he can be found every Saturday to prescribe his remedies, to give advice, and examine lungs with his Respirometer, if required.

Entered, according to Act of Congress, in the year 1862,

By A. McELROY,

In the Clerk's Office of the District Court of the United States, in and for the Eastern District of Pennsylvania.

# PREFACE.

The twenty-fifth edition of the Philadelphia City Directory, compiled by the undersigned, is at a late date presented to the public with the confident hope that it will be found so far useful as to be worth at least the amount of the subscription price.

At the usual season for canvassing, so little encouragement was extended to the work, that it was thought best to postpone its publication beyond the annual season of its issue, and, by an especial effort, endeavor to secure an amount of patronage at least equivalent to the cost of canvassing, printing and binding. This being attained, the undersigned is glad to be able to preserve the regular series of his Directory, although out of the ordinary season of publication.

The size of the Directory has been reduced; but it will be found sufficiently extensive to embrace most, if not all of the business community and principal housekeepers of the city, and no doubt will prove quite as useful as if extended to double the number of names it now contains. This reduction is mainly owing to the very great number of young men absent from the city in the volunteer service of their country, whose names have heretofore been found in the Directory, and the omission of a large number of names of females and others, occupying houses in which from three to ten families reside only for a very limited period. The names taken in Camden have also been incorporated with the city names, and will not be found, as heretofore, in a separate department. Besides, the business department, as well as the miscellaneous, have been greatly reduced by the omission of matter not thought to be of sufficient importance to the public generally to warrant the cost of publication. In addition, the two previous editions, 1860 and 1861, contained the names of *all* the farmers, butchers and dealers in our numerous market houses, most of whom live in the country. These have been omitted, as not properly belonging to a City Directory. The names of those only of this class residing in the city have been inserted in the present edition.

The mechanical execution of the Directory for 1862 needs no word of commendation from me, and I beg to close this brief preface with the hope that my unwearied efforts for the twenty-fifth year will be duly appreciated by the community. The compilation and arrangement of a Directory is attended with many difficulties, much labor, and with a small recompense in return. The whole, however, of this edition, including printing, binding, &c., has been accomplished in less than sixty days—a shorter time than in any other year.
